DIGITRON *CZ*

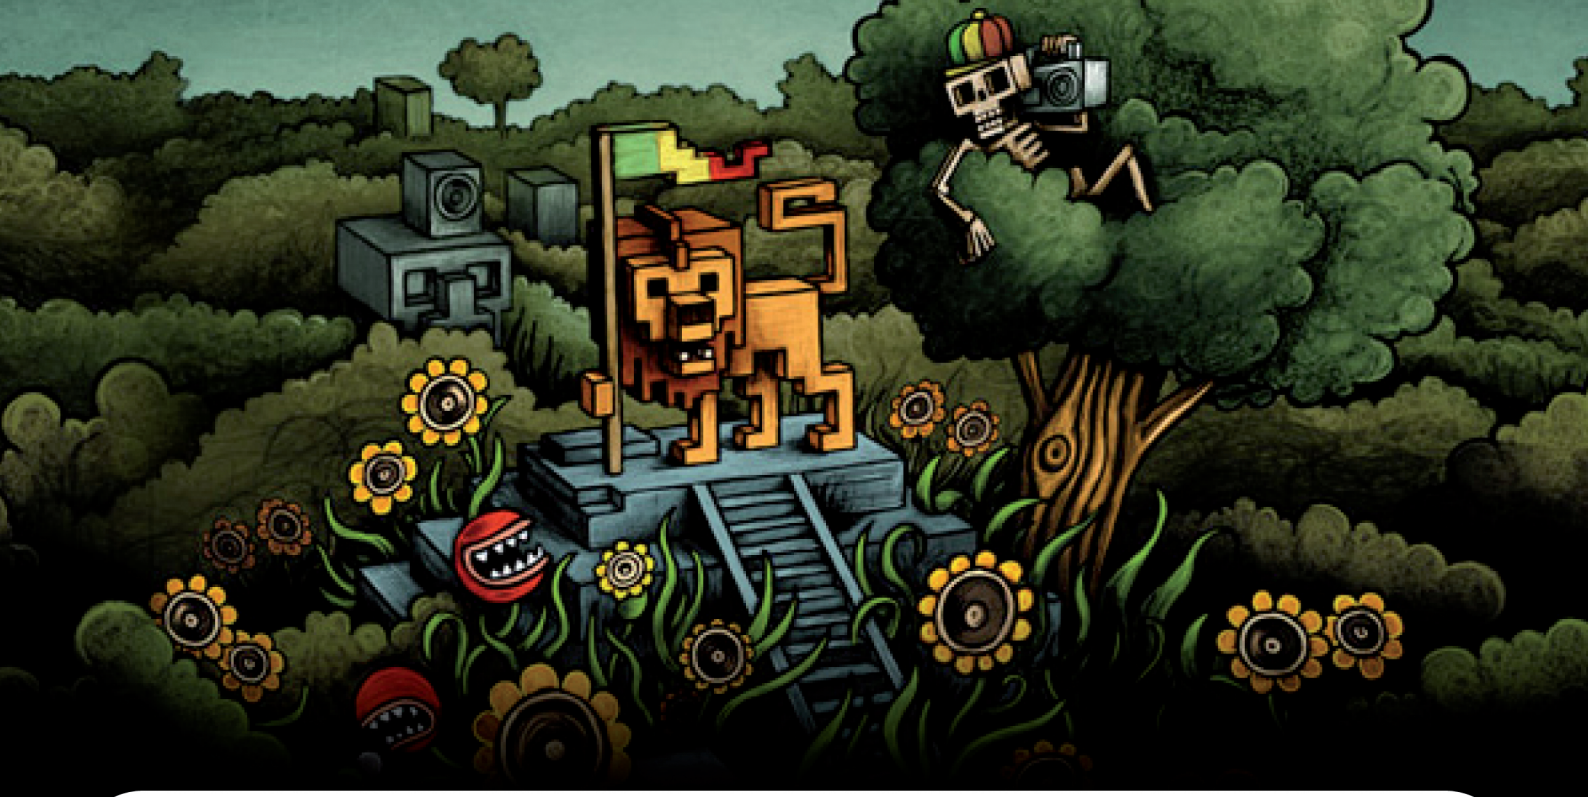

Offroad melodika version

DIGITRON Sound was established in 2007, by members of Radikal Dub Kolektiv and Bamwise (both live dubbands). Considering the fact that „dub scene“ in Croatia was/is not quite developed orpermanent for that matter, an idea was spawned to make a first self-bulit sound system,with an intention to promote dub music in the original way. Nowdays, Digitron is a well known sound system performing not only in Croatia, but allacross Europe, spreading the good vibes, a positive message, bass meditation and d.i.y.counter- culture ethics. Apart from the sound system, there is also a studio producing exclusive dubplates inna heavy–weight steppas dub stayle, which can be heard from different sound systems allaround the globe.
Digitron are Vrx (producer, selector), Robi (selector, operator), Jew Boy (mc)
Goldo (visual guerilla) ... and wider crew-family that join us at different festivals, when more demanding projectsare being done!
